Summary

IT student and aspiring Frontend Developer with hands-on experience in HTML, CSS, JavaScript, React, Bootstrap, Tailwind CSS, Git, and SQL. Strong understanding of web development fundamentals and responsive design principles. Additionally skilled in SQL, Python, Excel, and Power BI for data analysis and visualization. Passionate about building user-friendly web applications and leveraging data to support informed decision-making. Seeking an entry-level opportunity to grow in a dynamic tech environment.

Skills

Programming Languages: C, C++, Java, JavaScript, SQL

Frontend Development: HTML, CSS, JavaScript, React.js, Bootstrap, Tailwind CSS

Tools & Technologies: Git, GitHub

Experience

Fresher – Project Based Learning

2024 – Present

- Currently building hands-on experience through academic and self-initiated projects in Frontend Development.
- Applied SQL, Python, and Excel for data cleaning, analysis, and visualization tasks in real-world simulated datasets.
- Developed responsive web applications using HTML, CSS, JavaScript, React, Bootstrap, and Tailwind CSS.
- Utilized Git and GitHub for version control and collaborative workflow management.
- Continuously learning modern development practices and improving problem-solving skills.

Projects

Amazon Web UI Clone — React.js

Jan 2025 – Feb 2025

- Developed a fully responsive Amazon-inspired e-commerce web interface using React.js with reusable components and modular structure.
- Implemented modern UI design with product listings, navigation bar, search functionality, and category-based layout.
- Utilized React functional components and props to ensure clean code architecture and maintainability.
- Applied responsive design principles to ensure compatibility across desktop, tablet, and mobile devices.
